EVENTS AREA

ENHANCE YOUR EVENT

At the heart of Bab Atlas, a highly sought-after district of Marrakech, the Colosseum of the 5-star Tigmiza Marrakech Hotel offers 6,000 m² of landscaped gardens and covered areas designed and equipped to host all types of events.

With a capacity of up to 2,000 people, the whole area is modular, adaptable according to the client's preferences and revolves around a central building.

This enchanting site comprises 4 distinct areas: the pool area with its waterfall in Quarzazate stone, the garden area, a large grassy esplanade and its centenary olive grove, the dome and its extension, two circular atrium-style spaces, which allow for all types of scenarios.

While the Tigmiza's Colosseum is undoubtedly an exceptional place for organizing professional meetings, celebrating weddings and hosting other festive events, the hotel for its part allows for the proximity of the organizers and accommodation of the guests with its 28 suites, pavilions and villas.

The dome of the Colosseum is a giant marquee held up by 12 totems, columns clad in stone, marble or briquettes that support a wooden frame. The set is based on a mosaic patterned floor. This circular space of 20 m in diameter (without internal support), whose architecture is inspired by its Roman ancestor, was designed and developed to allow everyone to give free rein to their imagination, thereby creating a unique event.

The adjacent Tower, a fortress inspired by swashbuckling cloak-and-dagger tales, was originally designed to keep the bride from prying eyes while waiting for her Prince Charming...

Anteroom of the Colosseum, whose elements are removable, its 3 spaces can also serve as dressing room for performers, backstage for shows or wardrobe room for costumes...
